PROFILE

I am a Bachelor of Information and Communication Technology (Hons) undergraduate at the University of Colombo with an interest in networking, IT infrastructure, Linux, cybersecurity, cloud computing, and software development. Through academic and personal projects, I have gained practical experience in Cisco Packet Tracer, routing and switching, and AI-assisted network design. I am seeking an internship to apply my skills, develop hands-on industry experience, and contribute to real-world IT projects.

EXPERIENCE

Networking Project Contributor – Enterprise & Banking Network Simulation

- Designed and simulated enterprise and banking networks using Cisco Packet Tracer.
- Configured VLANs, trunk links, VTP, DHCP, routing, and switching; troubleshot connectivity.

Cloud & Client-Server Application Developer – E-Donor Blood Donation Platform

- Developed a cloud-connected platform linking blood donors and recipients.
- Used React, Node.js, Express.js, and Firebase for client-server communication, API integration, and cloud-based data management.

EDUCATION

- **Bachelor of Information and Communication Technology (Hons)** 2023 – Present
  Faculty of Technology, University of Colombo, Sri Lanka. Key coursework: Network Engineering & Architecture, Software Process Engineering, Advanced Database Management Systems, Mobile Application Development, and OOP.
- **A/Mihinthala Maha Vidyalaya, Anuradhapura** 2020 – 2022
  G.C.E. Advanced Level – Technology Stream. Engineering Technology (B), Science for Technology (A), and ICT (B).
  Z-Score: 2.1958 | Island Rank: 253

ACTIVITIES AND LEADERSHIP

100m Freestyle Swimming – 1st Place Dec 2024
Inter-Faculty TechnoChampionship, organized by the Techno Sports Club.

Senior Prefect
Led student discipline and coordinated school events.

School Website Design Contributor
Contributed to school website design during a web development workshop.

CERTIFICATIONS

Introduction to Cybersecurity (Cert)
Cisco Networking Academy (Oct 2026)

Network Defense (Cert)
Cisco Networking Academy (Oct 2026)

Cisco Networking Fundamentals (Cert)
Routing, Switching & Configuration

Linux Unhatched (Cert)
Cisco Networking Academy / NDG

AWS Cloud Architecture (Cert)
Foundational Cloud Infrastructure

API Redmail Integration (Cert)
Secure Mailing & Protocols

Web Application Development Workshop
Ministry of Education, Webcomms Global & LK Domain Registry

PROJECTS

NetworkForge – Packet Tracer AI Networking Agent (GitHub)

AI-Assisted Network Design, Cisco Packet Tracer, Prompt Engineering

- Built an AI networking agent that converts user requirements into structured prompts for Cisco Packet Tracer network designs.
- Organized topology, device, addressing, and configuration requirements to help plan complex network simulation scenarios.

Enterprise & Banking Network Simulation (GitHub)

Cisco Packet Tracer, VLANs, DHCP, VTP, Routing & Switching

- Designed multi-tier enterprise and banking network topologies with segmented departments and services.
- Configured VLANs, trunks, DHCP, routing, and switching, and resolved connectivity issues.

Real-time Service Monitor (GitHub)

Node.js, JavaScript, Real-time APIs

- Developed a service monitoring utility to track system performance and server status.
- Displayed real-time service availability and monitoring metrics.

E-Donor – Blood Donation Platform (GitHub)

React, Node.js, Express.js, Firebase

- Built a community blood donation system connecting donors and recipients.
- Implemented user registration, blood request tracking, and administrative dashboards.

TaskMate – Task Management App (GitHub | Figma)

Java, Firebase, Material Design 3, Figma

- Developed a task management mobile app with Firebase-based synchronization.
- Designed its personalized UI/UX in Figma using Material Design 3 principles.

SKILLS

Technical Skills

- Enterprise Network Design & Troubleshooting
- VLANs, VTP, DHCP, Routing & Switching
- TCP/IP, IP Addressing & Network Security
- Linux & Basic System Monitoring
- MySQL, MongoDB & Firebase Cloud Firestore

Programming Languages

- Python
- Java
- C
- JavaScript
- PHP
- SQL

Tools

- Cisco Packet Tracer
- Git / GitHub
- Figma
- Node.js
- React
- Express.js
- Firebase

Cloud Technologies

- AWS Cloud Architecture (Basic)
- Firebase Cloud Firestore

Soft Skills

- Problem Solving
- Troubleshooting
- Teamwork
- Technical Communication
- Adaptability

LANGUAGES

- English
- Sinhala (Native)
