PROFESSIONAL SUMMARY

Highly motivated 3rd-year Information and Communication Technology undergraduate with a strong foundation in network infrastructure, cloud architecture, and full-stack software development. Proven technical capabilities highlighted by an exceptional national-level rank in Engineering Technology (Island Rank: 253). Eager to leverage practical skills in enterprise networking, web/mobile development, and system monitoring through a challenging Software Engineering or Network Engineering internship starting November 2026.

EDUCATION

University of Colombo – Faculty of Technology

Bachelor of Information and Communication Technology (Hons)

2023 – Present

Colombo, Sri Lanka

• Key Coursework: Network Engineering & Architecture, Software Process Engineering, Advanced Database Management Systems, , Mobile Application Development, Object-Oriented Programming

A/Mihinthala Maha Vidyalaya,Anudhapura

G.C.E. Advanced Level – Technology Stream

2020 – 2022

Sri Lanka

Results: Engineering Technology (B), Science for Technology (A), Information & Communication Technology (B).

Z-Score: 2.1958

TECHNICAL SKILLS

Networking & Security Domains	Bank Network Infrastructure, Campus Network Topologies, Cybersecurity, Privacy and Data Confidentiality
Programming Languages	Python, Java, C, PHP, JavaScript, SQL
Databases & Storage	MySQL, MongoDB, Firebase Cloud Firestore
Cloud, DevOps & Tools	Cisco Packet Tracer (VLAN, DHCP, VTP, Routing & Switching), AWS Cloud Architecture (Basic), Linux, Git, GitHub, Figma, Real-time Service Monitor, Wondershare Filmora
Soft Skills	Problem Solving, Analytical Thinking, Team Leadership, Technical Communication, Adaptability
Languages	English (Professional Working Proficiency); Sinhala (Native / Bilingual)

SELECTED PROJECTS

Bank Network & Campus Network Infrastructure

Cisco Packet Tracer, VLAN, DHCP, VTP, Routing & Switching

• Designed and simulated secure multi-tier enterprise networks including bank network infrastructures and campus network topologies, implementing VLANs, routing, switching, and DHCP configurations. [GitHub Repository](#)

Networking & Security Project

Real-time Service Monitor Tool

DevOps & Cloud Monitoring

Node.js, JavaScript, Real-time APIs

- Developed a monitoring utility tool to track system performance, server statuses, and real-time service availability metrics..
- [GitHub Repository](#)

E-Donor (Blood Donation Platform)

Full Stack Web Application

React, Node.js, Express.js, Firebase

- Built a community-driven blood donation management system connecting donors with recipients, featuring user registration, blood request tracking, and administrative dashboard panels.
- [GitHub Repository](#)

TaskMate – Task Management App

Mobile Application & UI/UX Design

Java, Firebase, Material Design 3, Figma

- Developed a task management mobile application with a personalized interface and Firebase-based synchronization; designed the UI/UX in Figma using Material Design 3 principles.
- [GitHub Repository](#) — [Figma Design](#)

CERTIFICATIONS

- Introduction to Cybersecurity – Cisco Networking Academy (Issued: Oct 2026)([Link](#))
- AWS Cloud Architecture - Foundational Cloud Infrastructure Principles- ([Link](#))
- CCNA (Basic) - Routing, Switching, and Network Configuration Essentials([Link](#))
- **Linux Unhatched** – Cisco Networking Academy in collaboration with NDG ([Link](#))
- API Redmail Integration Certificate - Secure Mailing & Communication Protocols([Link](#))
- **Web Application Development Workshop** – Conducted by the Ministry of Education in collaboration with Webcomms Global (Pvt) Ltd. and LK Domain Registry (Contributed to the designing of the school website)

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

- Secured 1st place in the 100m freestyle(**Swimming**) event at the inter-faculty TechnoChampionship held on December 08, 2024, organized by the Techno Sports Club
- Served as a Senior Prefect, successfully leading student discipline, coordinating school events, and demonstrating strong leadership and responsibility.
